

COLLEGE OF NURSING, HONG KONG 香港護理學院

Dear colleagues,

It is with great pleasure that International Council of Nurses launched a song for all the world's nurses on July 22, 2020, '[I am a Nurse](#)', commissioned by ICN, written and performed by our talented colleague Colin Parish.

We want '[I am a Nurse](#)' to become an anthem for the 27 million nurses around the world and we hope that you will join us in promoting the song amongst the members of your associations and their families and friends. With your help we are sure it will be a great success as the lyrics reflect nurses' courage and fortitude, especially in the face of the pandemic.

We hope you like the song and the accompanying video which features nurses, including the Tonga Nurses Choir, kind enough to take time out during these very difficult times to perform and record it. Profits from sales will go to ICN's Florence Nightingale International Foundation, including its signature project, the Girl Child Education Fund. The Foundation, as you know, supports and complements the work and objectives of ICN, including through the advancement of nursing education, research and services for the public good.

['I am a Nurse'](#) was recorded during the height of the COVID-19 pandemic. It is available to purchase on Apple Music, Google Play, Amazon, Spotify and other music sales/streaming websites. You can watch and enjoy the video for free on YouTube but please encourage your colleagues, friends and families to download it, so that we can make as much profit as possible for this great cause.

Please support this project in any way you can and make '[I am a Nurse](#)' a smash hit!
